INSTALLATION

Installation Method	Directly Stick / Glue Down (Double Stick for Multi-level)
Suitable Substrates	Plywood, Particle Board, Concrete, existing timber - enquire for others
Joint Profile	Tongue and Groove (4 sides)
Suitable Applications	Flooring, Walls, Ceilings
Suitable Uses	Residential homes, hospitality, retail stores, restaurants, apartments
Underfloor Heating	Compatible with Hydronic Systems - enquire for others
Wet Area Suitability	Contact the Forté team for information 0508 35 66 77

TECHNICAL SPECIFICATIONS

Reaction to Fire (Floors)	Critical Flux 2.2kw/m ² (generic)
Reaction to Fire (Walls and Ceilings)	Group 3 / Class Dfl-s1 (Group 1 can be achieved with intumescent coating)
<u>Slip Ratings</u>	
AS/NZS 4586 Dry Test	Classification G, Mean COF 0.55 Classification X, Pendulum Mean
AS/NZS 4586 Wet Test	35 BPN
Formaldehyde Emission	E1 & CARB-2 Compliant
Wear Layer Density	700kg/m ³

PACK INFORMATION

Pack Size	0.432m ²
Pieces per pack	6 pieces (full length)
Pack Weight	6.48kg
Pack Dimensions	W 125mm x L 130mm x H 810mm

Herringbone Profile

ARTISTE HERRINGBONE

Plank is tongue and groove on all four sides. Product supplied in right and left planks.

ARTISTE – SMOKED EUROPEAN OAK

Smoking is a wood finishing process that darkens wood and brings out the grain pattern. It consists of exposing wood to an agent which reacts with the tannins in the wood, resulting in a natural-looking colour change. Depending on the intensity of the treatment, the colour of the wood can be changed from light to dark brown.

Whilst smoking is colourfast, it is not a precise process. Different planks can react differently, resulting in boards from the same tree, and even different regions of the same board, having a noticeably different colour. These natural variations are unavoidable, and should be considered a feature of the end product.

ARTISTE – RUSTIC GRADE

A rustic grade plank embraces the timber's natural character within the plank. Permitted knots, cracks and features achieves an enhanced natural look. The planks may have unlimited colour and grain variation.

Sapwood	None
Sound Knots	Healthy and well grown knots till 50mm allowed
Cracks and Out Falling Knots	Up to 25mm on diameter filled permitted
End Cracks	Occasional levelled up to approx. 150mm (but not usual)
