FOR STAINING WOOD SURFACES TO MATCH THE MODA COLLECTION

Moda Stains are designed for matching oak surfaces such as, tables, chairs, furniture, stairs to Moda Collection Timber Floors or wall panels.

METHOD OF APPLICATION

AFTER STIRRING AND SHAKING, PRODUCT IS READY FOR USE. DOES NOT NEED TO BE DILUTED.

Stir and shake tin thoroughly before use. Stain is to be applied onto a sanded and clean wood surface free from dust. Stain can be applied with paint brush, clean white rags, paint roller or by spraying. For more deeper colour result – repeat 2-3 times. Wait 15 minutes between applications or before overcoating. Use 30-50 ml of stain per square meter. Remove excess stain with white rag after application. Following stain application, protect floor surface by applying Moda SilkMatte Refresher

PRODUCT DETAILS

Ingredients	Pigments, isopropanol, methoxypropanol
Bottle Volume	0.75L
Consumption	30 50ml/m ² surface
Shelf Life	12 months from manufacturer date if package is intact
